SUBJECT INDEX

Academic feedback-corrective system 124
Accuracy standards 150, 155
Achievement
  cross subjects 245
  criterion-referenced assessment 257
  individual measurement 6
  Jewish and Arab students in Israel 191
  records 313
Achievement testing
  Average System 169
  national standards 295
  rule-assessment 159
Alternative testing methods, standards 149
Aptitude–treatment interactions 348
Arab students in Israel, achievement 191
Arithmetic, computer-aided instruction, naturalistic assessment 225
Arithmetic Proficiency Training Program 7
Arithmetic skills, diagnosis 160
Artificial Intelligence 159, 160
Assessment
  continuity and direction 263
  criterion-referenced 257, 275, 281
  graded 275, 305
  Jordanian GSECE 335
  non-competitive 251
  profile reports 325
  records of achievement 313
  school-based 245
  school, Hong Kong 356
  school, Netherlands 351
Assumptions of curriculum developers 134
Attainments in basic abilities 318
Australian Capital Territory, sex differences in aptitude scores 267
Australian Scholastic Aptitude Test 245
  sex differences 267
Average System 169

Basic skills mathematics curriculum, Prescriptive Test Theory 31
Basic skills, program evaluation and improvement 89
Biology, achievement of Jewish and Arab students 191
BUGGY system 160

Caution index, S-P chart 161
Certificate descriptions, validity 308
Change, measures of 111
Checklist, criterion-referencing 257
Chemistry — a Challenge 214
Chemistry, curriculum development 214
Cito 296, 352
Classroom organization, graded tests 277
Cognitive diagnosis 159
Comment Bank 320
Communicative skills 152
Comparability
  graded assessment schemes 309
  standards 245
Competence threshold, matriculation in Israel 187
Computer-assisted instruction
  formative evaluation 121
  naturalistic method for assessing arithmetic learning 225
Computerized curriculum monitoring and improvement systems 113
Concepts, curriculum development 132, 213
Context-Input-Process-Product model 179
Continuity in assessment 263
Continuous assessment 265
Cost-effectiveness analyses, program evaluation and improvement 89, 97
Courseware evaluation 121
Criterion-referenced assessment 257, 275, 281
Criterion reference measurement 96
Curriculum
  analysis and evaluation 139
  assessment and microcomputers 109
  development, chemistry 213
  materials 139
  science, formative evaluation 131

Decision-making strategies for grading 281
Defective item forms 61, 76
Deficit analysis 159
Descriptive assessment 251
Descriptive inferences 110
Desegregated classrooms, feedback-corrective procedure 197
Diagnosis 159
Diagnosis-evaluation-feedback-correctives 197
Diagnosis of individual student performance 5, 21, 37
Diagnosis Path-Finder 160
Disparity coefficient, S-P chart 163

EBP model 288
Effectiveness measurement 110

English as a foreign language, oral proficiency test standards 151
Evaluability assessment 90
  reading readiness programs 103
Evaluation methods 1920–1980s 94
Evaluation models 97
Evaluation standards 149
Examinations 313
  Hong Kong 355
  Netherlands, use of reporting and assessment 351
Examination program 352
External examinations 313
External schools, Israel 177

Fairness standards 151, 156
Feasibility standards 150, 156
Feedback-corrective procedure, desegregated classrooms 197
Feedback for learning outcomes 341
Foreign language testing 296
Foreign Service Institute Oral Interview 152
Formative assessment, profiles 327, 328
Formative evaluation
  computerized instruction 121
  science education 131

G.C.S.E., grade related criteria 286
Goal-based assessment 251
Goal definition, external schools 178
Graded Objectives for Achievement in Language Skills 305
Graded Objectives in Modern Languages 275, 307
Graded test movement 275, 305
Grade Related Criteria 286
Grading, specification of decision-making strategies 281
Group discussion, oral proficiency 153

HAVO 295
Hong Kong, school examinations 355
Hurdle system 286

Implementation inquiry 91, 93
  reading readiness programs 100, 104
Individual development 252
Individual instructional diagnosis 5, 21
Individualized learning 277
Information overload 215
Inquiry oriented curriculum 191
Inservice training, needs and satisfaction 205
Instructional Objectives Exchange 257
Israel
  attitude towards and interest in science 235
  Average System 169
  courseware evaluation 121–129
  curriculum analysis and evaluation 139
  evaluation standards for assessment of alternative testing methods 149
  external schools, second chance 177
  feedback-corrective procedure 197
  formative curriculum evaluation in science education 131
  Jewish and Arab students 191
  naturalistic method for assessing the learning of arithmetic 225
  revision of course materials 213
  rule-assessment approach to achievement testing 159
  teacher needs and satisfactions 205
  time needed to learn 237
Item bank, consistency and matching 172
Item difficulty calibration 5, 31, 44
Item Response Theory 159

Jewish students, achievement 191
Job specific study 319
Jordanian General Secondary Education Certificate Examination 335

Kent Mathematics Project 305
Kindergarten Reading Readiness Study 97

Latent-trait model 284
LBO 295
Learning outcomes, effect of reporting methods 341
Learning principles 95
Learning style, time 237
Life Sciences and Agriculture, user-focused evaluation 131
Listening comprehension 297, 299
LMS system 160
Local curriculum assessment 110
Logit item difficulty 9

Mastery, graded assessment schemes 306
Mastery Learning Strategies, desegregated classrooms 197
Mathematics
  applying Prescriptive Test Theory 31
  criterion-referenced assessment 258
  feedback 197, 342
  inservice courses 206
Mathematics Self Concept Questionnaire 198
Matriculation, Israel 177, 191
MAVO 295
Memory problems, computer-aided instruction 229
Meta-evaluation 141
Microcomputers and local curriculum assessment 109
Mixed-age classes 277
Moderation of school assessments 245, 267, 309
Modern languages, graded assessment 275
Moore Assessment Profile 205
Motivation, graded tests 276
Multicomponent Latent Trait Model 159

Multiplication item forms 59
Multiplication tests 7
  diagnosis of individual student performance 21, 50

National standards, Netherlands 295
Naturalistic assessment, arithmetic, computer-aided instruction 225
Needs assessment, inservice education 205
Netherlands
  national standards 295
  reporting and assessment with regard to final examinations 351
Non-competitive assessment 251
Novelty of curricular objectives 132

Occupational therapy, time to learn 238
Operational planning 91
Operations research 96
Oral interviews 152, 156
Oral proficiency in English as a foreign language 151
Oxford Certificate of Educational Achievement 331

Partial credit scoring 13
Percentage grading 283
Performance, concepts and prerequisites 133
Personal profile summary 321
Person diagnosis 21, 52
Personnel evaluation 115
Preference-feedback system 124
Prerequisites of performance 133, 137
Prescriptive test theory
  assessment of basic skills, mathematics curriculum in Singapore 31
  calibrating item difficulty 5, 31, 44
  development and use 3
  diagnosis of individual student performance 21
Pre-transition summaries of achievement 331
Primary schools, basic skills in mathematics 37
Process oriented assessment 159
Proficiency measures 93, 101
Profile Reports 317, 325
  caveats 332
  typology 327
Program evaluation and improvement based on cost-effectiveness 89–108
Progression of increasing competence 257

Rasch model 5, 9, 31, 296
  comparison with Average System 169
Readiness, graded tests 275
Reading comprehension 298
Reading readiness programs 97
Record of Personal Achievement 331
Record of Personal Experience, Qualities and Qualifications 331
Records of Achievement 313
Reinforcement 341
Remediation, Prescriptive Test Theory 28
Reporting and assessment, Dutch final examinations 351
Reporting methods and learning outcomes 341
Reporting Test, oral proficiency 153
Resource analysis 91
  reading readiness programs 98, 103
Role play, oral proficiency 152
Rule-assessment, achievement testing 159
Rule Space 159

Scaling instrument 249
School-based assessment 245
  Hong Kong 356
  Netherlands 351
School career-long assessment portfolios 331
Schooling objectives 314
School Science Certificate 305
Schools Sixth Form Tertiary Entrance Certificate 331
Science
  attitude towards and interest in 235
  graded test scheme 305
Second chance evaluation 177
Self concept, feedback-corrective procedure in desegregated classrooms 197
Self evaluation, external school students 185
Sex differences, scholastic aptitude scores 267
Simple percentage 283
Singapore, Prescriptive Test Theory, basic mathematics 31
Software evaluation 123
S-P chart 161
Standards for educational testing methods 149
Structured test, development and use 3–87
Student self-records 330
Subject matter concepts 132, 133, 137
Summary record 321
Summative assessment 328, 330

Teacher needs and satisfaction, inservice education 205
Teacher–pupil relations 322
Teaching methods, time to learn 237
Tertiary Entrance Score 245
Test equating 296
Tests
  calibrating item difficulty 5, 31
  standards for 149
Test scores, Average System 169
Time to learn outside class 237

User-focused approach 112
User-focused evaluation, science curriculum 131
Utility standards 149, 154

Validity of certificated descriptions 308
Vocationally-oriented achievement reporting 332
Vocational subjects, Hong Kong 356
VWO 295
West Sussex GOALS scheme 305
Whole-course reporting 330
Wicked problems 179
Work-based assessment 251
Writing skills, diagnosis 160
